

the Somerset Press

FRIDAY, OCTOBER 19, 1872.

LOCAL AND MISCELLANEOUS.

The "financial flurry" has caused a fall in the price of wheat in nearly all sections of the country. In many places it doesn't command \$1.00 a bushel.

A vast amount of coal is being daily hauled through this place from the banks south and south-east of town, by farmers and others living north of town.

WANTED.—Ten or a dozen new subscribers to the Somerset Press. The same to pay for the paper in coal.

By an advertisement in this week's Press, it will be seen that Dr. L. B. Dittoe offers his farm, near this place, for sale. There's a bargain in that farm for somebody.

The Dull property in this place will be offered for sale on Friday the 11th. It is appraised at \$1000.

Capt. Ashbrook's sale of fine stock, agricultural implements, grain, etc., and household and kitchen furniture will take place on the 23d, at his farm near Pleasantville.

Noah Axline will have a sale of personal property at his residence two miles east of Rushville, on Tuesday, the 21st inst.

Hon Lewis Green will please accept our thanks for a copy of the Report of the Geological Survey of Ohio. It is a valuable document, and is written in a style adapted to the popular understanding, as it ought to be.

The finest lot of Brushes ever offered in this market, at Skinner's Drug Store.

Moses Jarvis, aged 70, recently died at the Perry county Infirmary. He had been an inmate of that institution for a long time.

GOING WEST.—Our young friend, T. G. Caywood, having sold his farm, near this place, and concluded to locate in Northern Missouri, offers all his personal property for sale—the sale to take place on Tuesday, the 30th of this month at his residence, one mile east of Somerset, near the New Lexington road. We don't like to see a clever young gentleman as Mr. Caywood leave this locality, permanently, but he is entitled to his own mind, so we wish that he may find a pleasant home, and meet with success in his undertakings.

Miss Eva Chilcote is out with a new advertisement, announcing the arrival of her splendid stock of Fall and Winter Millinery goods. In a few days she will be in her new quarters adjoining Johnson's store, and the ladies should make haste to inspect her fine display of stylish goods.

Dr. L. B. Dittoe writes us from Shelbyville, Illinois, that he is highly pleased with that place, and the country surrounding it. He represents the town as a lively, thriving place, and an excellent market for farmers, who always find ready cash purchasers for their products. He thinks the country is a fine one for agricultural purposes, but the yield of corn this year is not an average crop, nor is the wheat crop as good as in former years—the heavy rains just before harvest having damaged it materially.

RAILROAD ACCOMMODATION.—The trains are running, for the first time since the N. & S. R. R. has been opened to the traveling public, so that connection can be made with the C. & M. V. R. R. at Junction City, and better connections made at Newark with the several roads centering there. To the citizens of our town who have business in Newark and our county seat and new southern towns, this change is very acceptable and is duly appreciated, as they can now visit any of them, transact their business and return the same day. The want of such accommodation has long been seriously felt, and we feel assured that the business of the road will be so increased by the change that Mr. Quincy, the Superintendent of the Western Division of the E. & O. R. R., will never again allow the trains to be run as they formerly were. The business men of Newark ought to be grateful for this change, for to our certain knowledge they have lost a great deal of trade, and not from Somerset alone, but herefore unaccommodating running of the trains.

The political cauldron—we believe that is what it is called—is boiling at a furious rate in this county this fall. In all quarters, busy aspirants for official positions are button-holing the sovereigns, zealously setting forth their own peculiar views for the places they seek, and earnestly bespeaking "support" upon the eve of the "second Tuesday."

Nearly all those who are willing to be anxious to take upon themselves the responsibility, the "pressure," and well-known "drudgery" of office, are in a high state of excitement and anxiety about the result; and, as it is a fact generally recognized, that all who would sacrifice their own interests to serve the public, cannot be promoted to servants—at least during the coming election—those who have voluntarily come forward, as well as those who have tamely suffered themselves to be dragged forward, do not fancy being scooped, and each one is naturally fearful that something detrimental to his individual prospects will be sprung on the eve of the election, which he may be unable to explain away, or counteract by a more astounding rooster of his own invention.

POST OFFICE AS SAVINGS BANK.—A proposition suggested heretofore to make all the important post-offices in the United States savings banks will be revived in Congress this winter. This proposal has always met with great opposition; but its friends think the thousands of dollars of money which are now being hoarded by the Government, and the trouble now passing will join in the demand upon the Government to provide absolute security against loss for its citizens, who with difficulty save only a small surplus of earnings, which must be safely deposited and easily procurable whenever necessary.—Washington Correspondence New York Times.

And still they come for those cheap snags, at Skinner's Drug Store.

Sedgwick's Ferretory Gully will remain in Somerset two weeks longer. We would advise all who wish good pictures to call soon.

Teeth extracted without pain by Dr. Dawson, Somerset, O. Go to him, and get every aching tooth and troublesome "snag" taken out.

About W. I. G. Conl.

Editor of the Press.

On Tuesday last, a son of Adam Ackler, Esq., was arrested on an alleged violation of an ordinance of the Incorporated Village of Somerset—and ordinance requiring that all coal sold or delivered in the corporation be weighed on the Corporation Scales. We are glad that this arrest has been made, and that the authority of the Common Council to make arbitrary laws regulating trade, is to be tested.

The law promulgated by the Council through the Press some weeks ago, is an assumption of power not warranted, by the constitution of the State of Ohio or authorized by the code. If a purchaser of B. 50 bushels of coal, and is satisfied to take B's measurement of the same, that is his business, and is none of the business of the Common Council, or anybody else. With just as much propriety they might legislate on the weight of articles purchased of them, or the color of the coat worn by them. If a purchaser of B. 50 bushels of coal, and is satisfied to take B's measurement of the same, that is his business, and is none of the business of the Common Council, or anybody else. With just as much propriety they might legislate on the weight of articles purchased of them, or the color of the coat worn by them.
